YOUNGJOO (JENNIE) RYU

Los Angeles, CA | 650-285-8155 | yjooryu@gmail.com | LinkedIn | Portfolio

Professional Summary

Product Manager with 7 years of experience architecting payments infrastructure, commerce platforms, and 0-to-1 product launches across B2B e-commerce. Built end-to-end systems — from embedded payment rails and vendor settlement architecture to SaaS operating systems and logistics engines. Proven track record turning greenfield initiatives into recurring revenue: $1M fulfillment launch in 5 months, $7.6M promotional system, and 40% CPC ad monetization growth.

Professional Experience

NHN Global Inc (FASHIONGO) | Los Angeles, CA — 10/2022 – Present

Product Manager, New Business & Platform Growth — 07/2025 – Present

- **SaaS-based Wholesale Commerce OS:** Architecting a standalone, end-to-end Wholesale Commerce OS by modularizing core infrastructure—including order fulfillment, payment processing and logistics —and launching a vertical CRM suite featuring SMS and email marketing tools, pivoting the business model from transaction-based to a scalable, recurring SaaS subscription revenue stream
- **FG PAY — Embedded Commerce Platform:** Leading the ground-up development of a headless payment module; engineered the API strategy to allow FASHIONGO's payment rails to operate on external marketplaces and vendor storefronts, creating a net-new transaction-fee revenue vertical.
- **Label It — Proprietary Fulfillment & Logistics Engine:** Architected a fulfillment domain to capture high-volume "off-platform" transactions by digitizing the manual relabeling workflow (manual tag replacing and repackaging process); engineered the end-to-end logic for multi-party order routing and automated settlement to capture $1M in revenue within the first 5 months. Leading the Phase 2 transition from a regional pilot to a nationwide affiliate network to drive long-term operational efficiency across all US territories.

Product Manager, Logistics & Promotions — 07/2024 – 06/2025

- **Matching Promotion Tool:** Created the "Matching Promotion" tool, a co-funding marketing promotion model between vendors and the platform that generated $7.6M in revenue, driving the highest performance in FASHIONGO Week (annual prime sales event) history and becoming a permanent marketing feature.
- **Logistics Network Expansion:** Scaled the "Ship with FG" system by expanding carrier integrations from UPS to FedEx, achieving a 35% increase in carrier adoption within six months; leveraged data to secure a high-value shipping segment with a $50 higher AOV, directly enhancing platform margins.
- **Free Shipping Program:** Spearheaded the development of a "Free Shipping" program as a core competitive marketing strategy and the primary logistics direction for FASHIONGO; overhauled the underlying settlement system to support complex shipping subsidies and vendor payouts.
- **Surcharge Billing Automation:** Launched automated shipping surcharge billing across UPS and FedEx, significantly reducing manual overhead and increasing transparency while minimizing platform financial losses.
- **Checkout Conversion Optimization:** Engineered an automated "Coupon Applicator" that dynamically identifies and applies discounts based on buyer profile, order value, and vendor specificities; increasing adoption rates by removing buyer friction.

Product Manager, Payments & Platform — 10/2022 – 06/2024

- **Vendor Settlement Architecture:** Built the end-to-end vendor settlement system from the ground up — engineered payout calculation logic accounting for platform fees, shipping costs, and coupon subsidies to ensure accurate, automated seller payouts at scale.
- **Vendor Onboarding Improvement:** Fully redesigned the vendor payment onboarding experience for 2,000+ vendors to support a multi-payment infrastructure — integrating Stripe for standard payment processing and a third-party Net Terms provider for deferred buyer payments.
- **CPC Ads Billing Flow:** Scaled CPC ad share to 40% by developing a prepaid ad flow with an auto-reload feature, significantly simplifying balance management and increasing reinvestment from vendors.

LA Rams | Los Angeles, CA 01/2022 – 06/2022

Product Analyst (Apprenticeship) 01/2022 – 06/2022

- Analyzed ticket sales and customer behavior data to surface season ticket conversion drivers; built Tableau dashboards and presented findings to stakeholders.

DesignPress | Seoul, South Korea 07/2018 – 06/2021

Product & Business Strategy Manager 07/2018 – 06/2021

- Launched *heypop.kr*, a content e-commerce platform shifting to a transaction-based model from a magazine business model. Led overall business, marketing and branding strategy.
- Built a newsletter business*(featured in portfolio)* from the ground up, achieving a 35% open rate and 18% click rate (13% above industry average) while acquiring a Gen Z customer base through A/B testing and KPI analysis (CAC, ROAS, CTR); growing from 0 to 30,000+ subscribers; featured in Trending Korea 2021, a nationally published annual trend series.

OE Solutions | Seoul, South Korea 07/2016 – 07/2018

Product and Sales Strategy Associate 07/2016 – 07/2018

- Developed a market entry strategy through product promotions in Shenzhen(China) driving a $25M revenue increase from 2016 to 2018, with over 70% of 2018 revenue from exports, primarily from the Chinese market.
